Profile Summary

Motivated and detail-oriented MCA graduate with a strong foundation in JavaScript, React.js, Node.js, Express.js, MongoDB, HTML, and CSS. Hands-on experience in developing full-stack web applications through academic projects and practical learning. Passionate about building responsive, user-friendly applications, solving real-world problems, and continuously learning modern web technologies. Seeking an opportunity as a Frontend Developer or Full Stack Developer to contribute to innovative projects while growing as a software professional.

EDUCATION

Greater Noida Institute of Technology

Master of Computer Applications (MCA) ; CGPA: 8.0

Learning software development, web technologies, and application design.

Greater Noida (UP)

July 2024 – May 2026

Indira Gandhi National Open University

Bachelor of Computer Applications (BCA) ; CGPA:6.69

Built a basic foundation in programming, databases, and web development.

Delhi (India)

July 2020 – May 2023

PROJECTS

Unified Suspect Detection System:

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MySQL, Python Flask,

Face Recognition Developed a full-stack rule-based suspect detection web application for identifying authorized persons and generating real-time suspect alerts using Node.js, Express.js, MySQL, and Python Flask. Built responsive frontend pages with HTML, CSS, and JavaScript, and developed secure backend APIs for authentication, person management, detection, dashboard, and alert modules. Integrated face recognition functionality using Python Flask and the Face Recognition library to compare facial encodings and classify authorized or suspect individuals. Worked on database management, frontend-backend integration, authentication, image uploads, and optimized backend performance for efficient detection and alert generation.

To-Do List Application:

Tech Stack: HTML, CSS, JavaScript, React.js, Local Storage

Developed a responsive To-Do List web application using React.js to help users manage daily tasks efficiently. Implemented features such as adding, editing, deleting, and marking tasks as completed. Used React Hooks (useState and useEffect) for state management and Local Storage to persist tasks across browser sessions. Focused on creating a clean, user-friendly interface and improving application performance through component-based architecture.

SKILLS

Languages: JavaScript(E6+), Python

Frontend & Libraries: HTML, CSS, React.js, Node.js, Bootstrap

Database: MySQL, MongoDB

Core Concepts: Data Structures & Algorithms, OOPS, Problem Solving

Tools: Git, GitHub, VS Code

Soft Skills: Communication, Team Player, Adaptability

CERTIFICATIONS

Full Stack Web Development Certificate – E & ICT Academy, IIT Kanpur

Issued: Nov 9, 2025

Developed responsive full-stack web application using react.js, Node.js, express.js, and MongoDB
